THE HAIR APPARENT

"There are so many exciting things happening right now with new high performing ingredients and never before seen technologies," says beauty industry icon **Frédéric Fekkai** who recently debuted The One by Frédéric Fekkai, a new line of haircare products that boasts the beauty boosting benefits of the Norwegian sea extract (sold at Ulta, Frédéric Fekkai salons and fekkai.com). "We focused on incorporating leading skincare technologies and anti-pollution protector into the formulas, as we noticed a demand for it from our stylists and consumers," he says. "With this line, I felt it was important to bring this salon-perfected and science-supported range to life to give our loyal clients an experience like no other," Fekkai says sharing that he also has an app in the works to make booking at his eponymous salons even easier—the next wave, indeed. —PW

TO BE FRANK...

As one of the go-to guys for many of Manhattan's most public faces, it was only a matter of time before **Dr. Paul Jarrod Frank** brought his medical fountain of youth to those who are unable to score a session with the celebrity cosmetic dermatologist himself. The newly debuted PFRANKMD Skin Salon (pfrankmdskinsalon.com) offers a safer alternative to medispas boasting an associate onsite doctor to oversee offerings adjacent to Dr. Frank's practice. Noninvasive cosmetic enhancements include anti-aging therapies like the BRP Medical Facial (\$1,250) that offers a greatest hits combination to tighten, brighten and clear the complexion via a cocktail of lasers and radio frequency. —PW
